PRINCIPAL'S MESSAGE

— The world is changing — so is Burbank. We don't have any radio-active atomic energy here at Burbank, but we hope—and think—that our building changes will be as rapid as if we did; our old bungalows moved over near the shop building for a year—a new auditorium and a new three-story classroom building along Bonar Street where the old bungalows now are—then a swimming pool by the boys' gym.

But we hope you wont forget old Burbank, even if some of the buildings are new. We shall miss you, graduating H9's, and hope you will come back to see us often.
